ABOUT OF THE HEALTH CENTRE

The Health centre of this university has started on 25.09.2009 in this university main campus. Initially, the centre was functioning in a hall adjacent to the university auditorium. After six months a separate building was constructed and now the health centre is functioning in the separate building.

The qualified doctor, physiotherapist, staff nurse and lab technician are working for treatment of the important investigations like blood tests and ECG and physiotherapy for the benefit of students, faculty members and administrative staff.

Mini Laboratory & ECG:

A mini laboratory is functioning in the centre and almost all important blood tests are being undertaken. The Laboratory equipments like Cell counter, Centrifuge, Microscope, Semi Auto Analyzer, Urine Analyzer and Hot Air oven. One qualified lab technician is looking after this laboratory.

• FIRSTAID FACILITIES

Maximum all emergency cases are attended in this health centre with the help of I.V Fluids, Injections, medications, Oxygen Cylinder, BF Apparatus, Glucometer, Pulse Oximeter, Infrared Thermometer, Nebulizer and Fowlers Cot for patient comfort. Patients are referred to the medical college hospital by utilizing the ambulance, if necessary.

- **PHYSIOTHERAPY CLINIC**

The Physiotherapy equipments like Ultrasound therapy, Muscle stimulator & TENS, Infrared therapy, CPM & Treadmill, Short wave diathermy, Elliptical, Traction and Mariners wheel are procured for the Health Centre under the UGC XII plan grants for the benefit of students and staff of the university and treatment is given by a qualified physiotherapist.

- **AMBULANCE:**

One Ambulance with all facilities is available for 24 hours service.
